The delay is caused by a resistor which is slowly eaten away by acid solution. The solution is contained in a glass tube which is broken either on impact or when the round is fired. 4 different color coded solutions provide for different delays of 2.5 hours, red - 3.5 hours, blue - 5 hours and violet at 8 hours. 			hours on 11 May 69 TOC reported to A Company in reference to a report from the National Police dtd 5 May. On 5 May an <del>VC</del> platoon moved to the Bivouac location at Plei Net Xo (ZA017340). Men of this unit wore khaki uniforms and were armed with 3 bars of 18 AK-47's, 3 colt pistols and individual assorted weapons. On 6 May this unit was reported digging combat trenches and setting up a watch station 100 meters south of this hamlet. Purposes and intentions were unknown. At 1020 hours on 11 May 69 TOC reported to A, C, and Recon about a captured document. It described delayed action fuses for 82mm mortar rounds that will cause them to detonate from 2.5 to 8 hours after impact. Delay is caused by a resistor eaten away by acid solution in a glass tube which is broken on impact or fire. Four different colored solutions are used for 2.5 hours, red for 3.5 hours, blue for 5 hours and violet for 8 hours. This suggests possible use in the Division AO. At 1050 hours on 11 May 69 S2 made a reference to the attack on LZ Oasis. From 0210 to 0440 hours 20 by 60 mm rounds, B-40 rockets and probable 57RR were used in the 1/35th area. The following equipment was found at daybreak: 10 by 60 mm expended mortars, 1 B-40 Rocket booster. Estimated rounds came from the south west on an Az of 265 degrees. At 1120 hours on 11 May 69 C Co and all elements from the 70 element report that they found 10 to 12 bunkers used recently at ZA054405 and they were not GI bunkers. At 1130 hours on 11 May 69 A Company reports 122mm coming from grid ZA025270 and hitting the Oasis. The 4.2 platoon got clearance on a firing position. At 1200 hours on 11 May 69 C Company reported the bunkers found by the Water point could sleep 2 to 3 men, used in past 2 days, and were tunnel connected. They found 1 rice bowl, 1 bottle in a bunker. At 1220 hours on 11 May 69 C Company 70 element (water party) seen 10 persons with weapons and uniforms. They used 81mm at ZA058408. At 1207 hours 11 May 69 C Company 70 element seen 5 VC/NVA in the clear. At 1420 hours 11 May 69 C Company 70W found 1 NVA pack with AK rounds, NVA clothes, bags at the location where they found the bunkers. At 1500 hours 11 May 69 TOC reported to Brigade a readout on the pack found by O Company. It was US stamped, similar to an old combat pack with unusual keepers. Size was 2'x3'x4', also found were 25 75mm recoilless rifle canisters (all colored) and 2 firing positions. They also reported that the fixed wing pad could be seen from both positions. At 0905 hours 13 May 69 C Company saw 4 men 100 meters away with weapons moving from south to north/east (vicinity ZA004205). B Company's 2nd platoon engaged them with small arms and M-79. The enemy fled to the north/east and B Company is now planning an artillery and mortar program. At 1750 hours on 13 May 69 B Company's 2nd platoon saw 3 men fully dressed, in black uniforms, not armed, and were located at (coordinate ZA104227) 300 meters due south. At 1920 hours A Company's 3d platoon in reference to B Company Commander's question on enemy casualties: During the incoming period at the Rock Quarry last night, trip flares were set off by 2 individuals entering the perimeter; one was shot, he fell to the ground while the other got away. One hour later the one that was shot disappeared to the east side of the Rock Quarry perimeter. At 1913 hours on 13 May 69 B Company requested a dust off for 5 enlisted men - 2 litter, 3 ambulatory categories - urgent and ETA is 20 minutes. Dust off 36 had injuries due to friendly 81mm mortar fire. At 1945 hours on 13 May 69 B Company reported 2 additional casualties and for a total of 7 wounded and the dust off is complete. At 2130 hours on 13 May 69 B Company reports that their 2nd platoon saw a man in the lead of an enemy element (ZA109245). The lead man was carrying a mortar tube larger than a 81 mm mortar possibly an 82 but the Company was not sure and did not see any ammo.
